

The chair of Economics of Regulation of the Swiss Graduate School of Public Administration (IDHEAP), University of Lausanne, is looking for a

PhD Student

in the field of Economics of Regulation

Job Description:

You devote half of your time to your PhD thesis on topics related to the economics of regulation (micro approach, e.g. contract economics).

The remaining time is devoted to assist the chair in teaching tasks (classes are given at a master level on microeconomics, macroeconomics and public economics).

Prerequisites:

- Applicants should have successfully completed their Master degree in Economics.
- They should also be strongly motivated and team-oriented.
- A very good command of English is required; any other language, such as French, is very welcome.

Benefits:

- Attractive salary conditions starting from 58'328 CHF.
- Very good research environment and facilities.
- Possibility of a joint PhD with the University of Paris 1 Sorbonne and of doctoral education such as the doctoral school of Gerzensee.

Calendar:

- Application deadline : July 15, 2009
- Start of doctoral research : at the earliest.

Application procedure:

Application → laure.athias@idheap.unil.ch

The application should include a detailed CV, a letter of purpose, the different grades obtained, bachelor included, one of your research works, as well as the names and contact details of two referees.
